DX NEWS OF INTEREST

As you can tell from the amount of loggings this month,there was some listening to be done over the 4th of 7/holiday! During the period of 7/3 to 7/8 UTC,I count a total of 80 broadcasts from 36 different pirate stations being reported.This includes a reception of a Europirate by Ed Rausch.I'm not totally sure how this activity compares to past holidays over the years but it definitely ranks up there as one of the most active.Hopefully all of you had a chance to catch the great programming that was on.

with help from the VR Troopers and other good Friends. VR is electronically transmitted to HDQ on or before the 23rd of each month; please send your input and comments to the above address prior to the 15th. Your active participation in the form of input, reports, suggestions, and/or constructive criticism is solicited and welcomed. Unless otherwise attributed, opinions in VR are those of this mildly disturbed individual and should not be misinterpreted to represent The A*C*E as an organization, or any other sane person for that matter. Got a beef? Comments and complaints should be directed to this columnist in triplicate for round-filing - and NOT to any other address.

Hail and Farewell! Our many thanks go out to departed DiaLogs editor Nick Grace who did an excellent job for the past 18 months or so. And a tip of the VR visor to Joe Filipkowski who stepped in cold and did a fine job with the July column. May Joe have as much fun editing as Nick has in Indonesia - and that's NOT meant as a curse..!

"Liberty: (1) a password in universal use, and hence of no value. (2) the slogan of a party or sect that seeks to enslave some other party or sect." -Elbert Hubbard

What's News the media report

The United States Postal Service is seeking to raise more funds, and the proposals before the Rate Commission include increasing the price of a postcard and restructuring Post Box rental fees. (If approved, the changes could mean vastly higher PO Box fees for many Free Radio maildrops. jta) [Linn's Stamp News, July 1, 1996; thx Alan Masyga]

"A new idea is first condemned as ridiculous and then dismissed as trivial, until finally it becomes what everybody knows." -Henry James

The Swappe Shoppe buy, sell, trade announcements Free to A*C*E members

Please be concise but complete: If you are looking for something accurately describe what you want; if you're offering something for sale give make, model, honest condition, and asking price. And please help me keep these ads up to date! NO collect calls unless otherwise specified.

WANTED:

Allied-Knight rcvrs, xmtrs, xcvs, and catalogs from the 60s and early 70s. Contact: John Vercellino, 6921 Springside Ave, Downers Grove, IL 60516.

New Zealand's free radio specialist needs recordings of US legal and pirate stations for a Radio Sound Archive. If you can contribute contact: SMR via Box 452.

Realistic DX160 rcvr. Contact: Richard McCarthy, 26842 Ivy Way, Madison, AL 35758, or call (205) 353-4485.

USA and Euro Pirates: Yr jingles & promos are needed by the Op of SMR for a 7" compilation. Send contributions via Box 452, and help preserve Free Radio history.

OFFERED FOR FREE:

Fanz of Heavy Metal music can get a free list of records available from: Alfred Spremo, POB 72-1168, Jackson Heights, NY 11372.

Various FT243 crystals for older Heath & Johnson rigs; 90, 43, 41 & 19 meters: US\$10/ea. Contact: jta for complete list.

Video Link DET101A stabilizer, never used: US\$25 (+ ship) OBO. MFJ751 single audio filter w/power pack: US\$50. Contact: jta.

Now you can enjoy your favorite pirate programs in the privacy of your own home or car without the usual noise and static! The DVS Archive contains nearly 400 programs from more than 100 different NAM stations, and the cost is absurdly low: only \$2 per program (\$4 for two) if you supply the tape, or for \$6 DVS will also provide a C90 cassette. For a list of what's available, send a #10 SASE to: DVS, POB 452, Wellsville, NY 14895.

"The more absurd the item, the more likely you are to need it the day after you throw it away."
-Erma Bombeck

OFF THE WALL... the rumor center

ADD to Box 28413: Cat In The Hat (CITH)...

couple things to watch for, DX-wise: Radio TechnoNet is supposed to be operating from Tasmania with 50-watts in AM mode on either 4795 or "near" 11700 from 0930 to 1230 UTC, specific weekday(s) not given [presume weekends down-under..?] thx Joe Filipkowski. And Radio Free London may be audible every 1st and 3rd Sunday from 0900 until 1300 UTC on 6400 kHz. May be a bit noisy, but possible...

if you're one of the blessed that manages to hear Radio TechnoNet, they use the following address: PO Box 797, Sandy Bay, Tasmania 7006. Good luck..!

While we're at it, I recall that Radio Waves Intl has re-activated from France; check 11401 kHz in the 2100-0100 time-frame and don't expect strong signals. There's Radio Tonair Intl from Holland on 9241 kHz heard occasional Sundays, and Wrekin' Radio Intl still uses 12265 kHz on weekends and holidays fairly frequently...

And once again there is some domestic activity on 13900 kHz - which is, for the most part, a clear frequency for broadcasts. So, you see, there's plenty of DX choices out there; ya jest hafta look for 'em..!

A good friend told me about his recent attempt to call his Regional FCC office: after dialing the local number he was greeted with a voice-mail menu; he selected to contact the Watch Officer at Laurel, MD. The switcher connected him to another voice-mail menu; he pressed "1" to file an interference complaint. Imagine his surprise to hear them say that the FCC does not pursue interference complaints any more, and encourage him to file a complaint with the manufacturer..!

I would caution against the belief that the FCC won't do anything, however. They certainly can and will if it becomes necessary. What is more worth considering is that the authorized users of certain bands favored by pirates (including 43 meters) are primarily point-to-point communication links, maritime, and/or military in nature, and they can cause their own havoc with unsuspecting pirates. As always the best advice is to talk to fellow Ops and read everything you can get your hands on, including the WRTH and Gilfer's "Confidential Frequency List". Information is knowledge; knowledge is power...

The only sure thing about luck is that it will change." -Bret Harte

Veried Response presents another ACE special feature:
Free Radio QSL Statistics formerly: The Scoreboard. updated: 18 July 1996

The ACE QSL Statistics appear in the Feb, May, Aug, and Nov editions of Veried Response. Kindly update your totals in January, April, September, and/or October for inclusion; mail them to: ACE Stats, PO Box 1, Belfast, NY 14711. And thank you for your continued support.

"The man with a new idea is a Crank until the idea succeeds." --Mark Twain

and here's a look at what was slipped *** under the door ***
the QSL report for August, 1996...

Monte Carroll had to get a new pot of glue to put up two full data orange cards (#61 & 94) from KDED in about a month, and a full data personal letter from North Jersey Coast Radio signed by Bruce DeVito in 49 days.

Joe Filipkowski flipped for joy over three full data sheets (#3, 9 & 11) and two full data cards (#35 & 44) from Voice of Indigestion signed by Horse in six months for ACE logs, a full data green sheet from Montana Audio Relay Service signed by Dreeble in 40 days, a date & freq only sheet (#5) from WRRN signed by Senator Watts in 15 days, a full data "WEVN" sheet (#924) from WLIS signed by CP in two weeks, a full data sheet from WTNT signed by Kid Dynamite in seven weeks, a full data sheet (#13) from URGZ in six months, a full data button (#4) from Black Swan Radio signed by the Naked DJ in about six months, a full data sheet (#1) from ORTQ signed by Jen Guy Tremblay in three weeks, and a full data "world music program" sheet (#186) from Altered States Radio in about two months for ACE log.

Vincent Havrilko basked in the hurricane sun and came up with two full data cards (#432 & 458) from WREC signed by PJ in 20 to 30 days, a full data sheet from Free Hope Experience in nine days, and two full data cards (#7 & 19) from Mystery Radio signed by The Shadow in 30 days or so.

Harry Helms was truly tickled to tears by a full data blue card from KXKVI after only four years and three months!

Mike Leclerc recovered sufficiently from a softball injury to be cognizant of a full data "streakie" sheet (#117) and newsletter from WPN signed by Capt Squirtlong in 120 days, a full data "Pink Floyd" (#13) and "skull & bones" (#5) cards and sticker from Mystery Radio signed by The Shadow in 40 days, a full data card with letter and studio photo from Radio One signed by Bobaloo in 17 days, a full data "3rd Anniversary" card (#456) with letter and sticker from WREC signed by PJ in 30 days, a full data "soldiers of the New Dalek order" card from Voice of the Daleks signed by The Supreme Dalek in 60 days, and a full data sheet (#2) from Up Your Radio Shortwave signed by Woody B. Serious for a report in ACE DiaLogs.

Chris Lobdell glided across a full data orange & black "skull" card (#60) from KDED in one month, a full data "horse eating from garbage pail" sheet (#17) from Voice of Indigestion in six months for PLS QSL in PiPa, and a full data sheet (#9) from WRRN signed by Senator Watts in two weeks.

Globe-trotting "grandma" Gigi Lytle celebrated a full data "skull in weeds" card (#66) from KDED in 71 days.

Greg Myers dodged the raindrops under a full data yellow card and infosheet from Radio Marabu in six weeks, a full data "martian" sheet from MARS in six weeks, a full data sheet from WTNT in six weeks, a full data sheet (#19) from WRRN with newsletter in two weeks, a full data orange "skull" card (#71) from KDED in eight weeks, a partial data sheet

from Partial India Radio in three weeks, a full data logo card with brochures and tape from Omega Radio [via WKND w/20 watts!] in six months, and a full data "Jack Boggans" sheet (#928) from WLIS in six weeks.

Marina Pappas celebrated a full data "skull in weds" card (#66) from KDED in six weeks.

Jesse Rose slipped on two "psychedelic skeleton" cards (#30 & 51) signed by Horse in nine weeks, a full data "Vote for Bob Dole" sheet (#23) with newsletter and personal letter from WRRN signed by Senator Watts in two weeks, a "partially complete, partial data" sheet and personal letter from Partial India Radio in three weeks, and a full data "out of cards at the moment" sheet and personal letter from North Jersey Coast Radio signed by Bruce DeVito in eight weeks.

Alfred Spremo was left breathless by a "plain blue full data card" from KXKVI for an April, 1992!! report. Let's see; that's about Four Years. A new world record!! Also two full data sheets with sticker, ruler, business card and other stuff from Radio Free Speech signed by Bill O. Rights in somewhere between 20 days and 8.5 months, a full data flyer and newsletter from CELL phone Radio in 20 days, and a frequency only sheet from Partial India Radio in 21 days.

Evan Wiley gasped at two full data sheets with bumper stickers and newsletters from Radio Free Speech in 30 days, a full data card from Radio One saying he was first listener from his state, a full data paper card from Radio Fusion Radio signed by Homey the Clown in 14 days, a letter congratulating him on finding the correct frequency with a DX390 from Free Hope Experience in 32 days, a full data "picture of a kid against a bullet-riddled wall" from Up Against the Wall Radio in 31 days, a full data "faces of death" sheet from WLIS in 18 days, two full data cards from WREC signed by PJ who sed he was the first reporter from his state in 34 days, a QSL from MARS in 30 days, a full data card from Tangerine Radio in 17 days, a full data orange card from KDED in 30 days, a foot/face/fone card from One Voice Radio in 20 days, and a full data letter from Free Hope Experience in 40 days. [welcome aboard, Evan; looks like you're hearing things... jta]

George Zeller sprained his back bending over to retrieve from his mailbox a full data "VoA logo" sheet (#880) from WLIS in 30 days, a full data tarjeta de confirmacion with Sam Barto's picture on it from XEROX signed by Bart Sambo in 48 days, a full data "logo with tornado" card from K2000 for log in bulletin in 212 days, a full data "map of world" card from Radio Two signed by Yabba Dabba Do in 24 days, a full data logo card and montage sheet from KGDR in 47 days, a full data "round-headed man with 3 antennas in his head" from Montana Audio Relay Service signed by Dreeble (martian QSL mgr), and a full data "horse eating out of a garbage can" sheet (#13) and card (#34) from Voice of Indigestion signed by Horse for reports wherever.

Ye Olde Columniste finally joined the elite with a full data green card (program 4, QSL #1) card from The Spectator signed by the "Merkin" less than 50 days with slip from very large fortune cookie telling me to look up "merkin" in the unabridged dictionary - and all shall be revealed! On the more mundane side, there was also a dynamite sheet from WTNT in 14 days, a very nice certificate from Radio KAOS signed by Joe Mama and the gang in 10 days, and another "not a rocket scientist association" certificate (#14) from RFM for a report on 3360 kHz. Must have HV varied on at least a dozen different frequencies now!

A Note from ACEPUB@AOL.COM:

Hi, hope that everyone is having a great summer and staying close to their radios! Due to unusually large amount of contributions received, I've decided to "exercise my publishers' rights," and to "shrink and fit" all the material into a regular 24 page bulletin (to avoid the postage increase). No omissions or cuts have been made in any of the columns, except that margins and spacing might be off a bit. We'll return to our usual layout format next month, provided I get my long overdue QSLs from Radio Midwebs, Radio Free Jesus and Radio EXP, and Scott finally gets his from WKND and Happy Hannukah, hi! YL

PS. Special thanks to CSIC, 6YCAT, KDED and Jerry Rigged Radio for submission of their QSL art. So where is your contribution???

CLANDESTINE PROFILE

George Zeller; 3492 West 123rd St; Cleveland, OH 44111

Your loggings, information, and speculations about clandestine radio stations are always very welcome for this column. You can send them direct to your editor at 3492 West 123rd Street, Cleveland, Ohio 44111. Or, you can call (216) 941-3366 anytime, or else (216) 696-9077 between 1200-2045 UTC weekdays. You can use George.Zeller@acclink.com for internet e-mail.

RADIO DEMOCRAT INTERNATIONAL CHANGING SCHEDULE

Radio Democrat International, the new English language clandestine operated by the anti-Nigerian government National Democratic Coalition (NADECO) and/or the National Liberation Council of Nigeria (NALICON), has created a major stir since it began shortwave transmissions on June 11. Its main attraction to DXers outside Nigeria is that its broadcasts are in English, and thus can be easily understood by us. Programming has consisted of pretty strong denunciations of the current state of governmental and economic affairs in Nigeria. About the only thing missing from a purely clandestine standpoint has been a lack of machine gun sound effects. We have plenty of news from the new station.

The main frustrating aspect of Radio Democrat International has been its erratic schedule. Although it normally operates on a daily basis, there have been a handful of days when its transmissions apparently did not appear. Worse, the station has shifted times and frequencies repeatedly during its first six weeks on the air. When it started with its first test on June 11, it maintained a consistent schedule of half hour broadcasts at 0600 UTC on 11900 and 1500 on 15120. Both of these frequencies produced usable signals in North America, particularly given the fact that summertime is not exactly the best season of the year for African DXing, and they were widely logged. But, it didn't take them long to change their schedule. On July 1 they moved to 41 meters, where a daily one hour broadcast on 7195 kHz at 2100 UTC replaced the two half hour broadcasts. This transmission was also widely heard in North America. But, in mid-July the station indicated that they would be moving to 6205 kHz on July 15. Veteran DXer Ed Rausch of New Jersey called to report that he heard an on-air announcement that they would be moving down to 49 meters. He later heard that they planned to move the time of the broadcast to something earlier than 2100. If you're looking for the station, it looks like it would be a good idea to tune around the bands somewhat. Since the station is changing schedules fairly rapidly, printed information has been becoming obsolete on a rapid basis. On July 21 I heard them with a truly good signal on 6205 kHz at 2115 UTC, announcing this frequency only. The 7195 kHz channel did not have the clandestine, and has been returned to the domain of Romania.

Some DXers have questioned the wisdom of the time and frequency shifts. For instance, there was some QRM to the station from Romania on their 7195 kHz frequency. Furthermore, rapid schedule changes tend to frustrate listeners who may fail to find the broadcast when they tune in at the expected time and frequency. This is not a good operating practice for purposes of building an audience. I have seen some tentative speculation that they may be moving to avoid anticipated jamming, although I have not heard jamming when I've logged the station, and I have not seen reports of jamming in other DXers' logs of the clandestine. It is possible that they are trying to frustrate Nigerian officials who are trying to DF the transmitter (see below), but it is likely that DXers and shortwave listeners are more frustrated than government officials by this sort of time and band jumping. It also appears from various communications direct from the station that while they are pleased about the flood of reception reports that is pouring in from all over the world, their main target audience is in Nigeria. So, it could be that they are fishing around for a frequency on lower bands that would provide a steady signal within Nigerian borders.

The station has overtly refused to identify their transmitter site. However, BBCMS (via *Monitoring Times*) pointed out that during a 1500 UTC broadcast on 15120 kHz, music was being transmitted instead of regular Radio Democrat International material. An announcement during the music said, "You are listening to the World Radio Network. We apologize for our break in transmission, and expect your programs will resume shortly. Please stay tuned for further details." So, it appears certain that WRN is providing a satellite feed to the actual transmitter site used for the shortwave broadcasts.

Nigerian Defence Information Director Brigadier General Fred Chujuka, speaking in the Nigerian newspaper *The Guardian*, said that the military would help in tracking down the operators of Radio Democrat International. Chujuka said that other "security arms of government" will be involved in this effort. He pointed out that operating the clandestine was a "treasonable offence" and "an act of sabotage." Nigerian information and Culture Minister Walter Oforiagor also said that if caught, the station operators "would face treason charges."

Information received via e-mail and in writing by many DXers indicated that the station refers to its operating entity as the National Democratic council. Other e-mail communication from the station has specifically denied that NADECO sponsors the station, and that NALICON, the National Liberation Council of Nigeria, is the umbrella group sponsoring the clandestine. It appears that there is some overlap between membership in these groups. Contradictory information has flowed over the air, in postal mail and e-mail from the station, and in various internet web pages about Nigeria. As of column deadline time, NALICON seems to be the lead suspect.

On the bright side, QSL's are already forthcoming from the station. Mine came in only 19 days for a report c/o NALICON UK, Post Office Box 9663, London SE1 3LZ, England. My QSL has no verie signer, but in Numero Uno #1382, Ed Rausch and John Wilkins of Colorado say that theirs were signed by Kayode Fayemi, Director of Communications for NALICON. Their Boston address at Post Office Box 175, Boston, Massachusetts 02131 also seems to be valid, but all of the QSL reports that I have seen have been successfully using the United Kingdom address. The station indicates that my QSL pictured in this issue of *The ACE* is a temporary one that will be followed by a QSL card when they get back from the printer. The "official" e-mail address of nalicon@postlin.demon.co.uk has been generating fairly rapid responses, but the QSL's are coming for mailed reception reports.

The amount of information available on the internet about the station has diminished considerably in comparison to what we reported in this column last month. I did note an item dated July 19 from the Panafrican News Agency that announced that Alex Akinyele, chairman of the national reconciliation committee of Nigeria (NARECOM) announced that a July 22 meeting was scheduled with the "opposition National democratic coalition" (NADECO) "as part of efforts to reconcile all groups in the country." The meeting, held in the western Owo state home of NADECO leader Michael Ajasin, planned to discuss NADECO's grievances. General Sani Abacha, head of the Nigerian government, had previously rejected requests from NADECO for a meeting. NADECO says that the government should surrender power to Moshood Abiola, winner of the 1993 Nigerian presidential election, but Abiola is in jail awaiting trial for treason after he declared himself president of Nigeria in June 1994. NADECO blames "greed among the elite" as the cause of Nigeria's social and economic problems. For what it is worth, I showed a list of NADECO supporters to a friend in Ohio who is from Nigeria. He said that the current government is largely made up of crooks, but he identified numerous names on the NADECO list who he also considered to be crooks.

Obviously this station is still a major story, and we'll be following developments very closely. If you have information, send it in!

RADIO PATRIA LIBRE RESURFACES

For over a year, Radio Patria Libre has rarely reported in DX publications. We have assumed that this anti-Colombian government voice of the far left wing ELN has been inactive, even though ELN military activities continually receive coverage in the press. The situation has changed. In Dateline Bogota via Numero Uno, Heinrich Klemetz reports that he logged the station signing off at 2230 UTC on 6300 kHz. The next day on June 16 he heard them signing off at 2234 UTC on 6450 kHz. He could not find them for four days, but on June 20 he noted their show on 6250 kHz between 2200-2230 UTC. On June 25 he heard them on 6250 kHz for a half hour at 2200 and on June 27 using 6248.2 kHz. Heinrich says that they announced a schedule from 0800 to 1700 local time on 6190 kHz, but obviously their operating habits are inconsistent with the on-air announcement. He says that the "station now seems to carry news and information without much delay," and he reports good signals. But, he says that they are not on the air every day. These times are a little early for us in North America during the summer, but as sunset moves earlier in the day, propagation to us should be possible again. It's worth looking for Patria Libre again; let us know if you hear them.

ACE member and longtime *Popular Communications* clandestine expert Gerry Dexter of Wisconsin sends word that the May 27 issue of *US News and World Report* mentioned that the ELN is receiving "regular

direct support from Iran." The magazine cites Brazilian intelligence sources for its information. Supposedly a deal was struck on March 17 between the ELN and the Iran-backed Hesbollah of Colombia and Venezuela, in which ELN drugs and cash would be used to finance Iranian arms and explosives being delivered to Colombia for the ELN.

COSTA RICAN CLANDESTINE SUSPECTS RELEASED; AWAIT TRIAL

ACE member Ullis Fleming of Maryland sends in a very interesting article on the Costa Rican FM clandestine incident that we discussed in last month's column. The June 21 issue of the English language *The Tico Times*. During a June 10 power failure that temporarily knocked San Jose FM stations Radio Sensación (104.7 MHz) and Radio Alajuela off the air, an "unknown clandestine voice" came on with attacks and insults against Costa Rican Minister of Public Security Juan Diego Castro and Costa Rican President Jose Maria Figueres. The attacks included a bomb threat at the President's office.

On June 13 Costa Rican police arrested Ivan Valverde, 25, and Andrés Brenes, 21, after National Radio Control officials triangulated the broadcasts to Valverde's house in the Moravia district in northern San José. Valverde was released two days later without bond, while Brenes waited in Jail for a week before posting a \$250 US bond. Both suspects vigorously claimed innocence. Valverde is somewhat of a local big shot. He is the son of the late editor and columnist Bosco Valverde of the large Costa Rican newspaper *La Nación*, and has also been very active as a ham operator during disasters, with the Red Cross using his equipment during the 1992 earthquake. Valverde claims that his equipment is incapable of making the clandestine broadcasts that were heard, but authorities confiscated a large quantity of radios anyway including a Yaesu FT2400 and a Yaesu FT-415. *The Tico Times* pointed out that Valverde maintains contact with elements of the local police reserve and the local national guard, sometimes using his radio equipment for their activities.

If convicted, both men would face up to six years in prison for threatening public officials and contempt. Ullis says that based on normal procedures in Costa Rica, the case could drag through the courts for quite some time.

CLANDESTINE STATION NEWS

A considerable amount of clandestine station news has piled up from the BBC Monitoring Service via *Monitoring Times*. Unfortunately we have been previously unable to print any of it either in *MT* or *The ACE*. So, since we have a little room here, I'll list some of the more interesting items.

Voice of the Masses. This Iraqi-based clandestine, which broadcast pro-Iraq programming from 1970 through 1991, has been silent since its transmitters were destroyed during the Gulf War. Iraqi Culture and Information Minister Abd al-Ghani has announced that the station will resume transmissions in late July. He did not provide a schedule of frequencies or times.

Voice of the Tamil Tiger. According to an interview on the July 4 Radio Netherlands Media Network program, the voice of the Sri Lankan rebels operates on 100 MHz FM. Thus, we cannot hear it. Veteran DXer Victor Goonetilleke of Sri Lanka reports that it jumps frequencies to avoid continual government jamming of its signal.

Radio Egypt of Arabism. BBCMS reports that they heard this new voice of the Egyptian opposition on June 27 at 2045-2100* UTC on 11875 kHz. They said that the station's programming seemed very similar to the former Voice of Egypt of Arabism, which has sometimes been broadcast as a regular Iraqi radio program and sometimes as a clandestine. The actual ID of the new station is Idha'at Misr al-Urubah. BBCMS presumes that the transmitter for this one is in Iraq.

Voice of the Movement of the Mojahedin of Iranian Baluchestan. BBCMS reports that this one, also presumed to be from Iraq, has been heard around 1330-1430 UTC on 11875 kHz. This is presumed to come from the same Iraq transmitter that broadcasts Radio Egypt of Arabism. Obviously the frequency is worth a check.

The Future (al-Mustaqbal). The *Washington Post* reported on June 23 that President Bill Clinton agreed in January to provide \$6 million to finance the Iraqi National Accord movement headquartered in Amman, Jordan, including funds for this medium wave clandestine that they operate. The London-based newspaper *Al-Hayat* quoted movement spokesman Salah al-Shaykhali two days later, who said that he had no knowledge of USA funding for his movement or the station. BBCMS presumes that the transmitter is in Egypt.

Voice of the Iraqi People. ACE member Stanislav Mekhonoshin of Perm, Russia says that he hears this station at 1845 UTC on 3983 and 5848 kHz. A third announced frequency is not audible in Perm. He also hears the **Voice of the People of Kurdistan** on 4100v and 6300v kHz at 1630 UTC. He's looking for our help on an unidentified communist anti-Iraq clandestine on 4000 kHz for an hour at 1630 UTC. Ideas, anybody?

FCC HEARING DISRUPTED BY WORKERS WORLD PARTY

ACE member Alan Masyga of Minnesota sends in a recent clipping from an unidentified socialist newspaper that covered a June 25 FCC Washington hearing on a request from the Fox TV network for an exemption from equal access laws. Fox plans to give free airtime to Bill Clinton and Bob Dole during the fall campaign for president, but only if they are "free to exclude other presidential candidates." FCC chairman Reed Hunt heard testimony from Fox owner Rupert Murdoch. Workers World Party volunteers, who support Monica Moorehead for president, stood up in the back of the room to loudly claim that the FCC was conspiring with TV networks to keep "progressive candidates" off the airwaves. The newspaper does not mention the results of the hearing or the disposition of the protesters.

THANKS!

This month we thank the following DXers who sent in material direct for this column: Ed Rausch (New Jersey), Ullis Fleming (Maryland), Alan Masyga (Minnesota), Gerry Dexter (Wisconsin), Stanislav Mekhonoshin (Russia), Radio Democrat International via NALICON (England), and George Zeller (Ohio).

DIALOGS CONTINUED FROM PAGE 13

The latest word on KIWI is that the station xmtr was knocked out during a storm & is awaiting replacement parts from Australia. Graham Barclay says he should be back on the air in no later than 6 weeks. I received this on 6/30 so it shouldn't be too much longer until "The Rock Of The South Pacific" is heard again. The new schedule is for Sat., Sun. & public holidays:

5850v, 0600 to 0750 UTC: 30-350 watts to the Pacific.

7445, 0600 to 0750 UTC: 350 watts-1.5 KW to USA & Europe (depending on VO Greece s/off).

7460, 0600 to 1100 UTC: 350 watts-1.2 KW to USA, Asia & Europe (this freq. is an alt. to 7445 in case Greece does not s/off.)

7475, 0750 to 1100 UTC: 350 watts-1.2 KW to USA, Asia & Europe (alternate to 7460) Thanks to Yolanda Lewis for this info.

Bennie Dingo of Rock-It Radio passed along some info he received regarding KIWI. He says that according to David Martin, editor for OZDX from the land downunder, KIWI is planning 7475 as a preferred channel & 7460 as a secondary. More on this as I get the info.

The address in Florida that the op of WARR is announcing is apparently phony. A few people heard him in a QSO w/WREC stating he doesn't believe in QSLs and the address is bogus. Maybe he will change his mind & QSL via Dialogs.

Deadline for September Dialogs: August 20th A BIG thanks to all who contributed this month. Joe

Radio Democrat International Nigeria

QSL - Verification of Reception

This is to confirm that GEORGE ZELLER received Radio Democrat International Nigeria on:

Date: JUNE 22 1996

Time: 14⁵⁰ - 15³⁰ GMT/UTC

Frequency: 15120 kHz Power: — kW

Transmitter location: —

SIGNATURE: R. D. I. NIG OFFICIAL SEAL: —

Micro 'casting

PRODUCT REVIEW **35mmAA Active Antenna**

I have found a circuit for a DYNAMITE little broadband active antenna; It's components fit in an area 1/2 the size of a standard postage stamp, is powered by a 9-volt battery and uses a 7-foot wire, with performance comparable to a 50- to 100- foot long wire! It works from about 100 kHz to 30 Mhz, with some improvement on the FM broadcast band with weak signals. The little thing is HOT!

I call it the "35mmAA" due to the fact it's packaged in 35 mm plastic film can for protection and it's an active antenna. I've tested it on my Sangean ATS-803A and Realistic DX-440 portables with GREAT results: on portables such as these is where the "35mmAA" really shines! When a signal is barely there, lighting maybe only one, maybe two LEDs, by switching in the "35mmAA", the signal jumps to all five LEDs! And it REALLY beats the heck out of that little random wire strung all around your room!

This active antenna works best on portables [and tabletop receivers] with an external antenna jack; it has only marginal performance just clipping it to the rod antenna itself. It works with the radio's internal ground on the shell of the antenna connector. Portable radios with no external antenna jack can, in most cases, be modified with an in-line RCA on 1/8" female jack to work with the "35mmAA". Even though I haven't done this yet, it could be installed directly inside most larger portables or other receivers for full-time operation [minus the film canister, of course!].

The "35mmAA" benefits apartment dwellers, portable radio users and other LW/MS/SW listeners who have limited options for multi-band outside antennas. BE AWARE that it is a simple active antenna and MAY also amplify noise as well as radio signals, and so may pick up stray RF from computers, fluorescent lights or other noise makers in close proximity.

Extremely simple to operate [pop on a 9-volt battery and turn the switch "on"] and portable [you can stick it in your pocket!], the "35mmAA" MUST be used to be believed! Not only is this little booger HOT, but it's CHEAPER THAN ANYTHING ELSE ON THE MARKET - only \$15 !!! BE SURE to state what sort of antenna jack your radio uses [female RCA, female 1/8" mono, etc...]. For instance, the Realistic DX-390 and DX-392 have 1/8" female jacks. For radios needing a PL-259, include \$2. Send check or money order to: Bud Stacey, PO Box 907, Satsuma, AL 36572 [if sending cash, please wrap it securely].

Questions?

Please include a long SASE and extra First Class stamp for replies.

ASSOCIATION OF CLANDESTINE RADIO ENTHUSIASTS
P. O. Box 11201, Shawnee Mission, KS 66207-0201

The A*C*E is an association of individuals who find pirate, clandestine and covert communications an interesting part of their radio listening hobby. The primary existence of the club revolves around the publication of a monthly bulletin. The A*C*E. The bulletin reports on pirate, clandestine, covert and other unexplained broadcasts. Also, the readers are provided with other available material concerning motives, explanations and theories behind these various broadcasts and broadcasters. The ACE as an organization, does not encourage, support or condone any illegal activity; we simply seek to understand the nature and reasoning behind such broadcasts. If your interests include listening to pirate radio stations, clandestine broadcasts, and covert communications, The A*C*E is for you!!

All subscriptions, renewals, and queries regarding subscriptions should be sent to the above club address. Contributions for each editor should be sent to their own given addresses.
